THE RESERVE STORY

Mumbai's rarest 18.6 acres

Godrej Reserve is Godrej Properties' flagship development in Mumbai's western suburbs — an 18.6-acre freehold land parcel on Akurli Road, Kandivali East, acquired outright in December 2022 with a developable potential of about 3.72 million sq.ft. and an estimated revenue potential of roughly ₹7,000 crore.

Brought to market in just fifteen months, the project recorded approximately ₹2,690 crore in bookings at its March 2024 launch — the best-ever residential launch in Mumbai for Godrej Properties, by both value and volume.

The design keeps the ground for living, not building: towers rise about 51 storeys above an eight-level podium, releasing nearly 6 acres (2.42 hectares) of landscaped greens across two levels — around 75%* of the site stays open. Every 3 and 4 BHK residence opens to a private deck; just eight homes share a floor, served by seven high-speed lifts.
